

ENVIRONMENTAL POLICY

(the “Policy”)

1. Our Responsibility to Achieve Better Environmental Performance

PT. The Univenus (hereinafter referred as the “Company”) is committed to implement sustainable development throughout our operations, by achieving better environmental performance, including managing available resources responsibly, developing environmentally friendly products and minimizing environmental impact.

Our Operations, Suppliers and Partners

Our facilities and suppliers and business partners (contractor and others) shall comply with all applicable policies, environmental legislation and regulations, requirements and standards regarding environmental management and protection including land, water, air and waste in the jurisdictions where we operate. We socialize these provisions to our suppliers and business partners and carry out regular monitoring.

2. Our Approach

To achieve the Company’s environmental commitments:

- 2.1 We implement internationally recognized standards such as ISO 14001 Environment Management System, ISO 50001 Energy Management System and other requirements to manage our environmental resources, aspects and impacts and to set targets for continuous environmental improvement.
- 2.2 We conduct environmental risk assessment and environmental impact assessment that used as guideline in efforts to prevent, control and monitor environmental impacts.
- 2.3 We innovate technology and control procedures to prevent and minimize land, water and air pollution utilizing control technologies, including through the application of 3R principle (Reduce, Reuse, Recycle) in managing waste (Hazardous and Toxic Materials, non-Hazardous) in accordance with applicable laws and regulations.
- 2.4 We implement programs for the reduction of Greenhouse Gas (GHG) and non-GHG emission through energy efficiency initiatives, increasing the share of renewable energy and the reduction of fossil fuels which are carried out by considering technical, commercial and sustainability aspects.
- 2.5 We implement efficiency in the use of water resource in our operations per unit of production as part of our commitment to the United Nations Global Compact’s CEO Water Mandate program.
- 2.6 We ensure the procurement of more energy efficient operational equipment in accordance with ISO 50001 Energy Management System.

- 2.7 We ensure efficient and environmentally friendly procurement and use of chemicals, complies with applicable national and international laws and regulations, requirements and standards designed to protect both public health and the environment.
- 2.8 We ensure that the sourcing of pulp that we use complies with environmental requirements in accordance with the Company's Fibre Procurement and Processing Policy (FPPP).
- 2.9 We implement Sustainable Forest Management (SFM), including the protection and conservation of High Conservation Values (HCV) and High Carbon Stock (HCS) across APP's pulpwood suppliers' concessions.
- 2.10 We implement fire safety management throughout our operational area in accordance with the Company's Health and Safety Policy and actively involved in prevention and mitigation.
- 2.11 We ensure the protection of biodiversity in our operational area.
- 2.12 We carry out inventory analysis, Life Cycle Assessment (LCA), and environmental impact studies of production processes and supporting activities
- 2.13 We apply the Circular Economy concept in all Company activities.
- 2.14 We communicate this Policy to workers, suppliers, local communities and other relevant stakeholders

3. Governance

- 3.1 This Policy applies to the Company's operations, suppliers and partners.
- 3.2 The provisions stated in this Policy are applied in the derived rules in our operations.
- 3.3 This Policy will be reviewed on a regular basis for relevance and its effectiveness to achieve business objectives. To ensure the implementation of this Policy, we conduct regular monitoring and evaluation of its progress.
- 3.4 Mill Service/General Affairs (GA) Function is appointed to coordinate the day-to-day implementation of the Company's environmental performance in line with this Policy. The Company¹ regularly reviews the progress on the implementation of this Policy.
- 3.5 We report the progress on the implementation of this Policy, to our stakeholders in a variety of ways.

This Policy is to further elaborate the Company's sustainable environmental commitment as stated in the Company's Sustainability Commitment.

Jakarta, 31 May 2023
